DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 4/1/04 has been considered by the examiner.

Specification

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Objections

Claim 8 is objected to because of the following informalities: under 37 CFR 1.75 Claim 8 as being a substantial duplicate of claim 1.

Applicant is advised that should claim 1 be found allowable, claim 8 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Appropriate correction is required.

Allowable Subject Matter

Claims 1-7 are allowable.

The following is an examiner's statement of reasons for allowance: Claim 1 is allowed over the prior art of record. The prior art, considered individually or in combination, fails to fairly show or suggest the claimed amplifier comprising, among other limitations, a novel and unobvious limitation of "the bias current source comprises a bias differential pair, the base of the transistor of which are connected parallel to the bases of the transistors of the main differential pair for steering these pair by one and the same control signal, and a current of said output of the bias current source is arranged to track in proportion collector current of the transistor of the bias current source, the base of which is parallel with the base of said one transistor of the main differential pair" structurally and functionally interconnected with other limitations in the manner as cited in claims 2-7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
